

A CHANCE FOR SNOW SPORTS IN SCHOOL: A PROJECT COURSE

Reference: by Mirja Goddemeier & Arno Krombholz, in: Sportunterricht 9/2016

IDEA: Realization of a project course with a thematic focus, no specifications by the curriculum, recognizing the potentials of snow sports

OBJECTIVES

- ✓ Sportive sector: learning and improving the technique
- ✓ Social & educational sector: Social interaction, teamwork, taking responsibility, independence

CHALLENGES

- ✓ Variable environmental conditions
- ✓ Manifold options for moving on the snowsport equipment
→ variable requests for actions

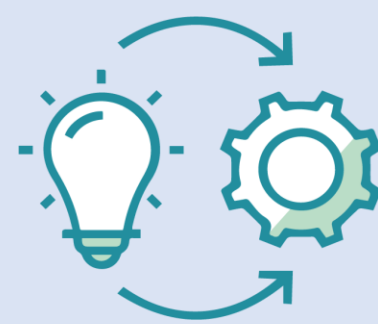

POTENTIALS

- ✓ Multiple possibilities for experiences in the nature
- ✓ Disputing the natural and the human made environment
- ✓ Snowsports require inter-disciplinary key competences

IMPLEMENTATION

- ✓ Course is structured based on ranges of competences
- ✓ Assessment of the students performances in theoretical (beforehand and during the excursion) and practical parts

COMPETENCE IN MOVEMENT AND PERCEPTION

- Applying the technique according to the situation

METHODOLOGICAL COMPETENCE

- Being able to aquire informations, presenting results, adhere to sporting arrangements

COMPETENCE IN JUDGEMENT

- Assesing dangers, evaluating situational requirements

PROFESSIONAL SKILLS / COMPETENCE

- Expertise about flora, fauna, climate, tourism, sustainability, principles of training
