## Environmental Working Group

Plastic waste in the mountains threatens our environment. INTERSKI INTERNATIONAL, ISIA and IAESS have partnered with the United Nations Environment Programme – Basel, Rotterdam and Stockholm Convention and signed a Memorandum of Understanding, with a 5-year commitment to develop education programs to help educate the public and help address plastic waste in the mountains.

This Environmental Working Group were asked to present to the world at the Global Workshop on Plastic Waste in the Mountains in Dushanbe, Tajikistan in November, 2024. Daire O’Connell, President of IASI and member of the working group, presented the planned work of our group and the role snowsports instructors can play in educating the public about this important issue.

On **March 10, 4 pm CEST**, we will be hosting an online seminar in which Frank Moser and Mehrnoosh Azodi of the BRS- MEAs, and Daire O’Connell will share highlights from the presentation in Tajikistan, key findings from the latest survey, highlight pilot activities in Europe, Central Asia, Africa, and Latin America, and emphasize the role of education and awareness-raising among local communities, youth, and snowsport enthusiasts.

## Official Theme Explained

Interski looks ahead to adapt and continually strive to be better, do better. From pushing technology to enhancing learning methodology, we are focused on a sustainable professional and personal lifestyle.

The Interski community welcomes everyone to snowsports. In the spirit of snowsports for all, the future is inclusion and creating pathways for all. Interski 2027 invites the world to explore, learn and belong to a community passionate for adventures on snow.

The relationships built through sharing and learning are transformational and life changing. We look forward to sharing the joy of snowsports as we welcome the world to Vail, Colorado for Interski 2027.
